DETAILED ACTION

Double Patenting

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 34-37, 39-51, and 53-59 provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 8-23 of copending Application No. 10/406429. Although the conflicting claims are not identical, they are not patentably distinct from each other because the instant claims call for ultrafiltration using an ultrafiltration membrane having a molecular weight cutoff of up to 30,000 to provide a retentate. In Application No. 10/406429, claim 12 provides the use of an ultrafiltration membrane having a cutoff of 5000 to 60,000. Absent a showing of unexpected results, it would have been obvious to one having ordinary skill in the art at the time of the invention to have modified the range of 10/406429 to that of the instant claims as a matter of preference depending on the particular equipment available, the cost of same, etc.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

Response to Amendment

Applicant's arguments with respect to the instant claims have been considered but are moot in view of the new ground(s) of rejection.
